Introduction

For over forty years Bob Timberlake has captivated people around the world with his art, his furniture, and his life. A renowned American realist painter, Bob Timberlake has taken the details and textures of rural North Carolina and translated them into a lifestyle that reflects the beauty and honesty of simple living.

Another World is a collection that celebrates this way of life—where family is celebrated and the places it gathers are cherished. In these pages is a collection of furniture that has heart and soul. It breathes the air of the man who envisioned it and carries with it the pride and artistry of all the woodworkers who build it. Made from cherry and other hardwood solids and cherry veneers, this furniture is meant to last and be passed down to those we love.

Come be inspired by a life well lived... discover Another World by Bob Timberlake.

Finish: Autumn (available only as shown)
W 81 in. D 91 in. H 86 in

Cherry solids and veneer.

#### T11-145 Queen 5/0

Finish & Hardware

Mr. Timberlake's long time friend, teacher, and master furniture maker, Fred Craver, always told him that you put the finish in the wood, not on it. Beautiful wood should be revealed through the finishing process, not covered and hidden by the finish. Autumn is a warm, brown finish designed to bring out the depth of the cherry solids and veneers in Another World. Through a 12 step process, the artisans who finish this furniture create beautiful works of art that we hope will be cherished and passed down through generations of families.
